INDEX TO VOLUME 253 (B)

Appendix to a paper by Clarke, Diver & Murray (Diver), 546.
Arnold, R. W. Studies on Cepaea. VII. Climatic selection in Cepaea nemoralis (L.) in the Pyrenees, 549.

Cain, A. J. Studies on Cepaea. V. Sand-dune populations of Cepaea nemoralis (L.), 499.
Cain, A. J. See also Currey & Cain.
Cain, A. J. & Currey, J. D. Studies on Cepaea. III. Ecogenetics of a population of Cepaea nemoralis (L.) subject to strong area effects, 447.
Cain, A. J., Sheppard, P. M. & King, J. M. B. Studies on Cepaea. I. The genetics of some morphs and varieties of Cepaea nemoralis (L.), 383.
Carter, M. A. Studies on Cepaea. II. Area effects and visual selection in Cepaea nemoralis (L.) and Cepaea hortensis, 397.
Clarke, B., Diver, C. & Murray, J. Studies on Cepaea. VI. The spatial and temporal distribution of phenotypes in a colony of Cepaea nemoralis (L.) (With an appendix by C. Diver), 519.
Corner, E. J. H. Ficus in the Solomon Islands and its bearing on the post-Jurassic history of Melanesia, 23.
Currey, J. D. See Cain & Currey.
Currey, J. D. & Cain, A. J. Studies on Cepaea. IV. Climate and selection of banding morphs in Cepaea from the climatic optimum to the present day, 483.

Diver, C. Appendix to a paper by Clarke, Diver & Murray.
Diver, C. See also Clarke, Diver & Murray.

Ficus in the Solomon Islands and its bearing on the post-Jurassic history of Melanesia (Corner), 23.
Further studies in the rectal complex of the mealworm Tenebrio molitor L. (Coleoptera, Tenebrionidae) (Grimstone, Mullinger & Ramsay), 343.

King, J. M. B. See Cain, Sheppard & King.

Marine molluscan assemblages in the early Pleistocene of Sidestrand, Bramerton and the Royal Society borehole at Ludham, Norfolk (Norton), 161.
Millott, N. & Vevers, H. G. The morphology and histochemistry of the echinoid axial organ, 201.
Morphology and histochemistry of the echinoid axial organ (Millott & Vevers), 201.
Mullinger, Ann M. See Grimstone, Mullinger & Ramsay.
Murray, J. See Clarke, Diver & Murray.

Norton, P. E. P. Marine molluscan assemblages in the early Pleistocene of Sidestrand, Bramerton and the Royal Society borehole at Ludham, Norfolk, 161.

Possible method of evolution of the migratory habit in butterflies (Baker), 309.

Ramsay, J. A. See Grimstone, Mullinger & Ramsay.

Sheppard, P. M. See Cain, Sheppard & King.
Studies on Cepaea. I. The genetics of some morphs and varieties of Cepaea nemoralis (L.) (Cain, Sheppard & King), 389.
Studies on Cepaea. II. Area effects and visual selection in Cepaea nemoralis (L.) and Cepaea hortensis (Carter), 397.
Studies on Cepaea. III. Ecogenetics of a population of Cepaea nemoralis (L.) subject to strong area effects (Cain & Currey), 447.
Studies on *Cepaea*. IV. Climate and selection of banding morphs in *Cepaea* from the climatic optimum to the present day (Currey & Cain), 483.

Studies on *Cepaea*. V. Sand-dune populations of *Cepaea nemoralis* (L.) (Cain), 499.

Studies on *Cepaea*. VI. The spatial and temporal distribution of phenotypes in a colony of *Cepaea nemoralis* (L.) (With an appendix by C. Diver) (Clarke, Diver & Murray), 519.

Studies on *Cepaea*. VII. Climatic selection in *Cepaea nemoralis* (L.) in the Pyrenees (Arnold), 549.

Taxonomy, ecology and host-specificity of some Phyllobothriidae (Cestoda: Tetraphyllidea), a critical revision of *Phyllobothrium* Beneden, 1849 and comments on some allied genera (Williams), 231.

Vevers, H. G. See Millott & Vevers.

Visceral nerves of *Octopus* (Young), 1.

Williams, H. H. The taxonomy, ecology and host-specificity of some Phyllobothriidae (Cestoda: Tetraphyllidea), a critical revision of *Phyllobothrium* Beneden, 1849 and comments on some allied genera, 231.

Young, J. Z. The visceral nerves of *Octopus*, 1.

*End of the two-hundredth and fifty-third volume—Series B*
## CONTENTS

**Series B Volume 253**

The visceral nerves of *Octopus*. By J. Z. Young, F.R.S. (Plates 1 to 8) ........................................... page 1

*Ficus* in the Solomon Islands and its bearing on the post-Jurassic history of Melanesia. By E. J. H. Corner, F.R.S. ................................................................. 23

Marine molluscan assemblages in the early Pleistocene of Sidestrand, Bramerton and the Royal Society borehole at Ludham, Norfolk. By P. E. P. Norton ............................................. 161

The morphology and histochemistry of the echinoid axial organ. By N. Millott and H. G. Vevers. (Plates 9 to 12) ................................................................. 201

The taxonomy, ecology and host-specificity of some Phyllobothriidae (Cestoda: Tetraphyllidea), a critical revision of *Phyllobothrium* Beneden, 1849 and comments on some allied genera. By H. H. Williams. (Plates 13 to 17) ................................................................. 231

A possible method of evolution of the migratory habit in butterflies. By R. R. Baker ............................................. 309

Further studies on the rectal complex of the mealworm *Tenebrio molitor*, L. (Coleoptera, Tenebrionidae). By A. V. Grimstone, Ann M. Mullinger and J. A. Ramsay, F.R.S. (Plates 18 to 32) ............................................. 343

Studies on *Cepaea*.

I. The genetics of some morphs and varieties of *Cepaea nemoralis* (L.).
   By A. J. Cain, P. M. Sheppard, F.R.S. and J. M. B. King ............................................. 383

II. Area effects and visual selection in *Cepaea nemoralis* (L.) and *Cepaea hortensis*.
   By M. A. Carter ............................................................................................................. 397

III. Ecogenetics of a population of *Cepaea nemoralis* (L.) subject to strong area effects. By A. J. Cain and J. D. Currey (Plate 33) ............................................. 447

IV. Climate and selection of banding morphs in *Cepaea* from the climatic optimum to the present day. By J. D. Currey and A. J. Cain ............................................. 483

V. Sand-dune populations of *Cepaea nemoralis* (L.). By A. J. Cain ............................................. 499

VI. The spatial and temporal distribution of phenotypes in a colony of *Cepaea nemoralis* (L.). By B. Clarke, C. Diver and J. Murray ............................................. 519

VII. Climatic selection in *Cepaea nemoralis* (L.) in the Pyrenees. By R. W. Arnold (Plates 34 and 35) ............................................. 549

Index ................................................................................................................................... 594
SOME OTHER PUBLICATIONS OF THE ROYAL SOCIETY

Proceedings of the Royal Society, Series A and B
Per part (post extra) £1.15s. ($4.55)
Per volume (cloth bound) (post extra) £8 ($20.80)

Subscription rates, payable in advance of publication
Per volume in parts as published (post free) £6.5s. ($16.00)
Binding cases are available at 5s. ($1.05)
Per volume cloth bound (post free) £7 ($18.00)

A Symposium on Continental Drift £8.10s. ($22.00)
Marine Science in the United Kingdom 1967 £2 ($5.00)

Biographical Memoirs of Fellows of the Royal Society
Volumes 1, 6 and 7 £1.10s. each volume ($4.00)
(Volumes 2 to 5 out of print)
Volumes 8 to 11 £2 each volume ($5.20)
Volume 12 £5 ($13.00)
Volume 13 £3.10s. ($9.00)

Notes and Records of the Royal Society
Volumes 15 to 23 £1.10s. each volume ($4.00)

Year Book of the Royal Society 1968 £1.15s. ($2.75)

General Notes on the Preparation of Scientific Papers 5s. ($0.65)

A Brief History of the Royal Society 10s. 6d. ($1.35)

The Royal Society: Its Origins and Founders £1.15s. ($4.55)

Space Research in the United Kingdom 1966–1967 13s. 6d. ($1.75)

Glossary of Technical Terms in Cartography £1 ($2.60)

Postgraduate Training in the United Kingdom
1. Chemistry 6s. ($0.80)
2. Physics 7s. 6d. ($1.00)
3. Biology 7s. 6d. ($1.00)

Mathematical Tables
A leaflet describing these volumes is available from the Executive Secretary, The Royal Society.
