A Discussion on resource development in semi-arid lands

NOTICE TO CONTRIBUTORS TO
PROCEEDINGS AND PHILOSOPHICAL TRANSACTIONS
OF THE ROYAL SOCIETY

The Royal Society welcomes suitable communications for publication in its scientific journals: papers estimated to occupy up to 24 printed pages are considered for the Proceedings and longer papers and those with numerous or large illustrations for the Philosophical Transactions.

Detailed advice on the preparation of papers to be submitted to the Society is given in a leaflet available from the Executive Secretary, The Royal Society, 6 Carlton House Terrace, London SW1Y 5AG. The ‘Instructions to authors’ are also printed in every fifth volume of the Proceedings A and B (volume numbers ending in 0 or 5). The basic requirements are: a paper should be as concise as its scientific content allows and grammatically correct; standard nomenclature, units and symbols should be used; the text (including the abstract, the list of references and figure descriptions) should be in double spaced typing on one side of the paper; any diagrams should be drawn in a size to permit blockmaking at a reduction to about one half linear, the lettering being inserted not on the original drawings but on a set of copies; where photographs are essential the layout should be designed to give the most effective presentation.

The initial submission of a paper should normally be through a Fellow or Foreign Member of the Society, but papers may be submitted direct to the Executive Secretary. The latest lists of Fellows and Foreign Members are to be found in the current edition of the Year Book of the Royal Society. In the event of any difficulty, an author is invited to send the paper direct to the Executive Secretary.

No page charge is levied, and the first 50 offprints of a paper are supplied to the author gratis.

A DISCUSSION ON RESOURCE DEVELOPMENT IN SEMI-ARID LANDS

ORGANIZED BY SIR JOSEPH HUTCHINSON, F.R.S., A. H. BUNTING, A. R. JOLLY AND H. C. PEREIRA, F.R.S.

(Discussion held 17 and 18 March 1976 – typescripts received 30 June 1976)

[2 plates]

CONTENTS

R. C. Rainey, F.R.S. .................................................. 439
Rainfall: scarce resource in ‘opportunity country’
Discussion: E. G. Davy, G. Stanhill, E. B. Worthington, D. E. Pedgley
and W. B. Broughton .............................................. 454

A. T. Grove .......................................................... 457
The geography of semi-arid lands
Discussion: M. K. Miles, E. B. Worthington, H. Doggett, B. Dasgupta
and B. H. Farmer .................................................. 474

Dharma Kumar ..................................................... 477
The edge of the desert: the problems of poor and semi-arid lands
Discussion: G. Murdoch, J. Swift and N. E. Reynolds .............................................. 489

R. A. Perry .......................................................... 493
The evaluation and exploitation of semi-arid lands: Australian experience
Discussion: S. Sandford and Sir Joseph Hutchinson, F.R.S. .............................................. 505

J. K. Jain ............................................................ 507
India: underground water resources
and W. Robson .................................................... 522

V. C. Robertson .................................................... 525
Experience in the Middle East
Discussion: T. Riney, D. C. P. Thalen, J. A. Allan and E. B. Worthington .............................................. 533

J. Dresch ............................................................ 537
The evaluation and exploitation of the West African Sahel
Discussion: V. C. Robertson, R. Dodoo Jr and W. E. Ormerod .............................................. 541

R. F. Hadley ........................................................ 543
Evaluation of land-use and land-treatment practices in semi-arid western United
States
Discussion: B. Dasgupta, N. E. Reynolds, S. Sandford and E. B. Worthington .............................................. 553
CONTENTS

H. C. Pereira, F.R.S.
Land-use in semi-arid southern Africa 555
Discussion: H. C. Pereira, F.R.S., T. Riney, B. Dasgupta and A. B. Rains 562

D. E. Tribe
The conservation and improvement of resources: the grazing animal 565
Discussion: W. E. Ormerod, S. Sandford, E. B. Worthington, A. B. Rains and J. Swift 580

D. Rijks
The conservation and utilization of water 583
Discussion: R. A. S. Ratcliffe, R. E. Sowden and C. J. Bevan 592

J. Elston and M. D. Dennett
A weather watch for semi-arid lands within the tropics 593
Discussion: J. A. Adedokun, S. Sandford, G. Stanhill, W. E. Ormerod and M. Mansell-Moullin 606

A. H. Bunting
Review and prospect: where do we go from here? 611
