ERRATUM

Molecular dynamics of hydrated protein

BY H. D. MIDDENDORF AND SIR JOHN RANDALL, F.R.S.

On p. 640, §2, line 10, *for* 0.40–0.80 g H$_2$O/g protein *read* 0.40–0.080 g H$_2$O/g protein.

On p. 645, expression (6.1) should read

\[ I_p(\omega) \propto a_0 + pL(\omega|\omega_0) + (1-p) G(\omega|\omega_0). \]

Subject index

Arcaea, 45.
Arthropod *Odaraia alata* Walcott, Middle Cambrian. Burgess Shale, British Columbia, 541.
Auditory organ of cicada, organization of, 525.

*Balanus perforatus* cirral activity and feeling, 411.
*Balanus* species, oviducal glands and ovisacs, development and function of, 147.
Burgess Shale (Middle Cambrian, British Columbia) arthropod *Odaraia alata* Walcott, 541.

Cephalopod, aminergic fluorescence in brain of, 127.
Cicada, *Cystosoma saundersii*, auditory organ of, 525.
Cirripedes, cirral activity and feeding, 411.
Cumacea (Crustacea) – taxonomy, 353.

Deep-sea bivalves, 45, 77.
Devensian and Flandrian molluscan and plant biostratigraphy, 1.
Dicynodont, Permian, functional anatomy of, 243.
Directional sensitivity of the retina (Stiles-Crawford effect), 323.

*Epileucon* (Cumacea, Leuconidae) – deep Atlantic, 353.

Fluorescence, aminergic in cephalopod brain, 127.

Indian Triassic reptile *Malerisaurus*, 163.
Infectious diseases: population dynamics, 451.

Limopsidae, 77.

*Malerisaurus*, a new eosuchian reptile from India, 163.
Molluscan and plant biostratigraphy in Kent, 1.

Oviducal glands and ovisacs of two *Balanus* species (Crustacea: Cirripedia), 147.

Permian dicynodont, functional anatomy of, 243.
Phototropism of retinal receptors, apparent, 323.

Retinal receptor alignment, 323.

Systematics of the *Pomatoschistus minutus* complex (Teleostei: Gobioidae), 201.
