CONTENTS

Series B  Volume 293

No. 1063  26 June 1981

The enzymes of glycolysis: structure, activity and evolution
  A Discussion organized by Sir David Phillips, Sec. R.S., C. C. F. Blake and
  H. C. Watson. [Two plates] .............................. page 1

No. 1064  7 July 1981

The Wallingford Fan Gravel
  By A. Horton, B. C. Worsam and J. B. Whittow .................. 215

No. 1065  16 July 1981

Embryonic growth and innervation of rat skeletal muscles
  I. Neural regulation of muscle fibre numbers. [Plates 1–6] ........ 257
  II. Neural regulation of muscle cholinesterase. [Plates 1–6] ...... 279
  III. Neural regulation of junctional and extra-junctional acetylcholine receptor
       clusters. [Plates 1–8] .................................. 287
  By A. J. Harris.

No. 1066  16 July 1981

Plesiosaur ancestors from the Upper Permian of Madagascar
  By R. L. Carroll. [Plates 1 and 2; pullouts 1–4] ................  

No. 1067  16 July 1981

The Pleistocene deposits of the area around Croft in South Leicestershire
  By R. J. Rice ............................................. 385

No. 1068  16 July 1981

On the annual cycle of the blue-green alga Microcystis aeruginosa Kutz. emend. Elenkin
       1–4] .................................................... 419

No. 1069  12 August 1981

The localization of motoneurons supplying the hindlimb muscles of the mouse
  By S. McHanwell and T. J. Biscoe. [Plates 1 and 2] ............... 477

No. 1070  12 August 1981

Spinal nerve distributions in the upper limb: the organization of the dermatome and
  afferent myotome
  By R. W. Dykes and Julia K. Terzis ............................. 509
