CONTENTS

Series B  Volume 297

No. 1084  15 April 1982
The primary structure of carp myoglobin in the context of molecular evolution
   By A. E. ROMERO-HERRERA, N. LIESKA, A. E. FRIDAY and K. A. JOYSEY  page 1

The lamina monopolar cells in the optic lobe of the dragonfly Sympetrum
   By I. A. MEINERTZHAGEN and CHRISTINE ARMETT-KIBEL. [Plates 1–7]  27

No. 1085  13 May 1982
The architecture of an alluvial suite: rocks between the Townsend Tuff and Pickard Bay
   Tuff Beds (early Devonian), southwest Wales

A guide to the neuroanatomy of locust suboesophageal and thoracic ganglia
   By N. M. TYRER and G. E. GREGORY. [Plate 1]  91

No. 1086  13 May 1982
On the anatomy of the misophrioid copepods, with special reference to Benthomisophria
   palliata Sars
   By G. A. BOXSHALL. [Plates 1–8]  125

No. 1087  1 June 1982
The long-term effects of oil pollution on marine populations, communities and ecosystems
   Proceedings of a Discussion organized by H. A. COLE and R. B. CLARK. Edited by
   R. B. CLARK  183

No. 1088  11 June 1982
New dimensions in microbiology: mixed substrates, mixed cultures and microbial communities
   A Discussion organized and edited by J. R. QUAYLE, F.R.S., and A. T. BULL.
   [One plate]  445
