AIMS AND SCOPE

Each issue of Phil. Trans. R. Soc. B is devoted to a specific area of the biological sciences. This area will define a research frontier that is advancing rapidly, often bridging traditional disciplines. Phil. Trans. R. Soc. B is essential reading for scientists working across the biological sciences. In particular, the journal is focused on the following four cluster areas: neuroscience and cognition; organisational and evolutionary biology; molecular, cellular and developmental biology; and health and disease. As well as theme issues, the journal publishes papers from the Royal Society’s biological discussion meetings. For information on submitting a proposal for a theme issue, consult the journal’s website at publishing.royalsociety.org/philtransb.

For information on submitting a proposal for a theme issue, consult the journal’s website at publishing.royalsociety.org/philtransb.

Phil. Trans. R. Soc. B articles are published regularly online and in print issues twice a month. Along with all Royal Society journals, we are committed to archiving and providing perpetual access. The journal also offers the facility for including Electronic Supplementary Material (ESM) to papers. Contents of the ESM might include details of methods, derivations of equations, large tables of data, DNA sequences and computer programs. However, the printed version must include enough detail to satisfy most non-specialist readers. Supplementary data up to 10MB is placed on the Society’s website free of charge. Larger datasets must be deposited in recognised public domain databases by the author.

Selection criteria

The criteria for selection are scientific excellence, originality and interest across disciplines within biology. The Editors are responsible for all editorial decisions and they make these decisions based on the reports received from the referees and/or Editorial Board members. Many more good proposals and articles are submitted to us than we have space to print, so we give preference to those that are of broad interest and of high scientific quality.

Subscriptions

In 2008 Phil. Trans. R. Soc. B (ISSN 0962-8436) will be published twice a month. Full details of subscriptions and single issue sales may be obtained either by contacting our journal fulfilment agent, Portland Customer Services, Commerce Way, Colchester CO2 8HP; tel: +44 (0)20 7976 1837; fax: +44 (0)20 7976 1837; email: sales@portland-services.com or by visiting our website at publishing.royalsociety.org/subscribers. The Royal Society is a Registered Charity No. 207043.

Electronic Submission details

For full submission guidelines and access to all journal content please visit the Phil. Trans. R. Soc. B website at publishing.royalsociety.org/philtransb.
