Statistical and computational challenges in molecular phylogenetics and evolution

Papers of a Discussion Meeting Issue organized and edited by Ziheng Yang and Nick Goldman

Introduction. Statistical and computational challenges in molecular phylogenetics and evolution 3889
N. Goldman & Z. Yang

The perils of plenty: what are we going to do with all these genes? 3893
A. Rodrigo, F. Bertels, J. Heled, R. Norder, H. Shearman & P. Tsai

A likelihood framework to analyse phylectic patterns 3903
O. Cohen, N. D. Rubinsteine, A. Stern, U. Cophina & T. Pupko

A model of evolution and structure for multiple sequence alignment 3913
A. Lioytnoja & N. Goldman

Bayesian inference of fine-scale recombination rates using population genomic data 3921
Y. Wang & B. Rannala

Basing population genetic inferences and models of molecular evolution upon desired stationary distributions of DNA or protein sequences 3931
S. C. Choi, B. D. Redelings & J. L. Thorne

Bayesian analysis of amino acid substitution models 3941
J. P. Huelsenbeck, P. Joyce, C. Lakner & F. Ronquist

Modelling heterotachy in phylogenetic inference by reversible-jump Markov chain Monte Carlo 3955
M. Pagel & A. Meade

Phylogenetic mixture models for proteins 3965
S. Q. Le, N. Lartillot & O. Gascuel

Efficient computation of the phylogenetic likelihood function on multi-gene alignments and multi-core architectures 3977
A. Stamatakis & M. Ott

Fast, accurate and simulation-free stochastic mapping 3985
V. N. Minin & M. A. Suchard

Fast phylogenetic DNA barcoding 3997
K. Munich, W. Boomsma, E. Willerslev & R. Nielsen

The genetic code can cause systematic bias in simple phylogenetic models 4003
S. Witlan

Evaluating the robustness of phylogenetic methods to among-site variability in substitution processes 4013
M. T. Holder, D. J. Zwickl & C. Desimone

Dealing with incongruence in phylogenomic analyses 4023
N. Galtier & V. Daubin

Empirical evaluation of a prior for Bayesian phylogenetic inference 4031
Z. Yang

The impact of single substitutions on multiple sequence alignments 4041
S. Klaere, T. Gesell & A. von Haeseler

Erratum 4049

Statistical and computational challenges in molecular phylogenetics and evolution

Papers of a Discussion Meeting Issue organized and edited by Ziheng Yang and Nick Goldman
