The Royal Society is an independent scientific academy founded in 1660 and self-governing under Royal Charter. The Society has three roles, as the scientific academy of the United Kingdom, as a learned society, and as a funding body.

The objectives of the Royal Society are to:
- recognize excellence in science
- support leading-edge scientific research and its applications
- stimulate international interaction
- further the role of science, engineering and technology in society
- promote the public understanding of science
- provide independent authoritative advice on matters relating to science, engineering and technology
- encourage research into the history of science

For further information on the Society’s activities, please contact the following departments on the extensions listed by dialing +44 (0)20 7839 5561, or visit the Society’s Web site (www.royalsociety.org).

Research Support (UK grants and fellowships)
Research appointments: 2547
Research grants: 2539
Conference grants: 2540

Science Advice
General enquiries: 2583

Science Communication
General enquiries: 2572

International Exchanges (for grants enabling research visits between the UK and most other countries (except the USA))
General enquiries: 2550

Library and Information Services
Library/archive enquiries: 2606

Cover image: Kismet was developed at the MIT Artificial Intelligence Laboratory in the late 1990s and pioneered socio-emotional interaction between people and robots. In his photo, Kismet is sharing a playful moment with its creator Dr Cynthia Breazeal. (See pages 3527–3538; image courtesy of Donna Coverley, MIT Press Office.)
