Language as a multimodal phenomenon: implications for language learning, processing and evolution

Papers of a Theme Issue compiled and edited by Gabriella Vigliocco, Pamela Perniss, Robin L. Thompson and David Vinson

Contents

INTRODUCTION
Language as a multimodal phenomenon: implications for language learning, processing and evolution
G Vigliocco, P Perniss and D Vinson 20130292

ARTICLES
Semiotic diversity in utterance production and the concept of 'language'
A Kendon 20130293

Widening the lens: what the manual modality reveals about language, learning and cognition
S Goldin-Meadow 20130295

Two sources of meaning in infant communication: preceding action contexts and act-accompanying characteristics
U Liszkowski 20130294

Hearing and seeing meaning in speech and gesture: insights from brain and behaviour
A Özyürek 20130296

Echoes of the spoken past: how auditory cortex hears context during speech perception
JI Skipper 20130297

The origin of human multi-modal communication
SC Levinson and J Holler 20130302

Origin of symbol-using systems: speech, but not sign, without the semantic urge
MI Sereno 20130303

How arbitrary is language?
P Monaghan, RC Shillcock, MH Christiansen and S Kirby 20130299

The sound symbolism bootstrapping hypothesis for language acquisition and language evolution
M Imai and S Kita 20130298

Iconicity as structure mapping
K Emmorey 20130301

The bridge of iconicity: from a world of experience to the experience of language
P Perniss and G Vigliocco 20130300
