Language as a multimodal phenomenon: implications for language learning, processing and evolution

Papers of a Theme Issue compiled and edited by Gabriella Vigliocco, Pamela Perniss, Robin L. Thompson and David Vinson

Introduction
Language as a multimodal phenomenon: implications for language learning, processing and evolution
G. Vigliocco, P. Perniss & D. Vinson

Articles

Semiotic diversity in utterance production and the concept of ‘language’
A. Kendon

Widening the lens: what the manual modality reveals about language, learning and cognition
S. Goldin-Meadow

Two sources of meaning in infant communication: preceding action contexts and act-accompanying characteristics
U. Liszkowski

Hearing and seeing meaning in speech and gesture: insights from brain and behaviour
A. Özyürek

Echoes of the spoken past: how auditory cortex hears context during speech perception
J. I. Skipper

The origin of human multi-modal communication
S. C. Levinson & J. Holler

Origin of symbol-using systems: speech, but not sign, without the semantic urge
M. Sereno

How arbitrary is language?
P. Monaghan, R. C. Shillcock, M. H. Christiansen & S. Kirby

The sound symbolism bootstrapping hypothesis for language acquisition and language evolution
M. Inai & S. Kita

Iconicity as structure mapping
K. Emmorey

The bridge of iconicity: from a world of experience to the experience of language
P. Perniss & G. Vigliocco

In this Issue
Language as a multimodal phenomenon: implications for language learning, processing and evolution
Papers of a Theme Issue compiled and edited by Gabriella Vigliocco, Pamela Perniss, Robin L. Thompson and David Vinson
