INTRODUCTION	
Communicative rhythms in brain and behaviour R Smith, T Rathcke, F Cummins, K Overy and S Scott	20130389
ARTICLES	
Rhythm in joint action: psychological and neurophysiological mechanisms for real-time interpersonal coordination PE Keller, G Novembre and MJ Hove	20130394
Fourteen-month-old infants use interpersonal synchrony as a cue to direct helpfulness LK Cirelli, SJ Wan and LJ Trainor	20130400
Take a breath and take the turn: how breathing meets turns in spontaneous dialogue A Rochet-Capellan and S Fuchs	20130399
Exploring how musical rhythm entrains brain activity with electroencephalogram frequency-tagging S Nozaradan	20130393
Attentional entrainment and perceived event duration JD McAuley and EK Fromboluti	20130401
Auditory rhythmic cueing in movement rehabilitation: findings and possible mechanisms RS Schaefer	20130402
Cerebellum, temporal predictability and the updating of a mental model SA Kotz, A Stockert and M Schwartze	20130403
Losing the beat: deficits in temporal coordination C Palmer, P Lidji and I Peretz	20130405
Quantification of rhythm problems in disordered speech: a re-evaluation A Lowit	20130404
Speech rhythm: a metaphor? F Nolan and H-S Jeon	20130396
Timing in talking: what is it used for, and how is it controlled? A Turk and S Shattuck-Hufnagel	20130395
Gestural coordination at prosodic boundaries and its role for prosodic structure and speech planning processes J Krivokapić	20130397
Situational influences on rhythmicity in speech, music, and their interaction S Hawkins	20130398
CORRECTIONS	
Correction to 'Primordial germ cell specification: a context-dependent cellular differentiation event' U Günesdogan, E Magnúsdóttir and MA Surani	20140314
