Theme issue: The evolution of cooperation based on direct fitness benefits

	Article ID		Article ID
EDITORIALS			
Comments from the departing Editor L Partridge	20150471	Cooperation between non-relatives in a primitively eusocial paper wasp, <i>Polistes dominula</i> J Field and E Leadbeater	20150093
Comments from the new Editor J Pickett	20150470	Evolution of social behaviour in the primitively eusocial wasp <i>Ropalidia marginata</i> : do we need to look beyond kin selection? R Gadagkar	20150094
PREFACE			
The evolution of cooperation based on direct fitness benefits M Taborsky, JG Frommen and C Riehl	20150472	Why mutual helping in most natural systems is neither conflict-free nor based on maximal conflict R Bshary, K Zuberbühler and CP van Schaik	20150091
PART I: THEORETICAL CONSIDERATIONS			
There is no fitness but fitness, and the lineage is its bearer E Akçay and J Van Cleve	20150085	Cheating and punishment in cooperative animal societies C Riehl and ME Frederickson	20150090
Negotiation and appeasement can be more effective drivers of sociality than kin selection AE Quiñones, GS van Doorn, I Pen, FJ Weissing and M Taborsky	20150089	Biological trade and markets P Hammerstein and R Noë	20150101
Cooperation and the common good RA Johnstone and AMM Rodrigues	20150086	Adaptations for social cognition in the primate brain ML Platt, RM Seyfarth and DL Cheney	20150096
A simple rule for the evolution of contingent cooperation in large groups RH Schonmann and R Boyd	20150099	PART III: A HUMAN PERSPECTIVE	
Individual variation behind the evolution of cooperation Z Barta	20150087	The evolution of altruistic social preferences in human groups JB Silk and BR House	20150097
Models of social evolution: can we do better to predict 'who helps whom to achieve what?' AMM Rodrigues and H Kokko	20150088	Reputation, a universal currency for human social interactions M Milinski	20150100
PART II: ANIMAL COOPERATION BASED ON DIRECT FITNESS BENEFITS			
Correlated pay-offs are key to cooperation M Taborsky, JG Frommen and C Riehl	20150084	How institutions shaped the last major evolutionary transition to large-scale human societies ST Powers, CP van Schaik and L Lehmann	20150098
Non-kin cooperation in bats GS Wilkinson, GG Carter, KM Bohn and DM Adams	20150095	COMMENTS AND INVITED REPLIES	
		A comment on Tononi & Koch (2015) 'Consciousness: here, there and everywhere?' AB Barrett	20140198
		A reply to Barrett (2016) G Tononi and C Koch	20150452
