## Theme issue: The evolution of cooperation based on direct fitness benefits

	Article ID		Article ID
<b>EDITORIALS</b>		Cooperation between non-relatives in a primitively eusocial paper wasp, <i>Polistes dominula</i>	
Comments from the departing Editor L Partridge	20150471	J Field and E Leadbeater	20150093
Comments from the new Editor J Pickett	20150470	Evolution of social behaviour in the primitively eusocial wasp <i>Ropalidia marginata</i> : do we need to look beyond kin selection?	
		R Gadagkar	20150094
<b>PREFACE</b>		Why mutual helping in most natural systems is neither conflict-free nor based on maximal conflict	
The evolution of cooperation based on direct fitness benefits		R Bshary, K Zuberbühler and CP van Schaik	20150091
M Taborsky, JG Frommen and C Riehl	20150472	Cheating and punishment in cooperative animal societies	
		C Riehl and ME Frederickson	20150090
<b>PART I: THEORETICAL CONSIDERATIONS</b>		Biological trade and markets	
There is no fitness but fitness, and the lineage is its bearer		P Hammerstein and R Noë	20150101
E Akçay and J Van Cleve	20150085	Adaptations for social cognition in the primate brain	
Negotiation and appeasement can be more effective drivers of sociality than kin selection		ML Platt, RM Seyfarth and DL Cheney	20150096
AE Quiñones, GS van Doorn, I Pen, FJ Weissing and M Taborsky	20150089	<b>PART III: A HUMAN PERSPECTIVE</b>	
Cooperation and the common good		The evolution of altruistic social preferences in human groups	
RA Johnstone and AMM Rodrigues	20150086	JB Silk and BR House	20150097
A simple rule for the evolution of contingent cooperation in large groups		Reputation, a universal currency for human social interactions	
RH Schonmann and R Boyd	20150099	M Milinski	20150100
Individual variation behind the evolution of cooperation		How institutions shaped the last major evolutionary transition to large-scale human societies	
Z Barta	20150087	ST Powers, CP van Schaik and L Lehmann	20150098
Models of social evolution: can we do better to predict 'who helps whom to achieve what?'		<b>COMMENTS AND INVITED REPLIES</b>	
AMM Rodrigues and H Kokko	20150088	A comment on Tononi & Koch (2015) 'Consciousness: here, there and everywhere?'	
<b>PART II: ANIMAL COOPERATION BASED ON DIRECT FITNESS BENEFITS</b>		AB Barrett	20140198
Correlated pay-offs are key to cooperation		A reply to Barrett (2016)	
M Taborsky, JG Frommen and C Riehl	20150084	G Tononi and C Koch	20150452
Non-kin cooperation in bats			
GS Wilkinson, GG Carter, KM Bohn and DM Adams	20150095
