Theme issue: The peculiar carbon metabolism in diatoms

	Article ID		Article ID
INTRODUCTION		Investigating mixotrophic metabolism in the model diatom <i>Phaeodactylum tricornutum</i>	
The peculiar carbon metabolism in diatoms B Schoefs, H Hu and PG Kroth	20160405	V Villanova, AE Fortunato, D Singh, DD Bo, M Conte, T Obata, J Jouhet, AR Fernie, E Marechal, A Falciatore, J Pagliardini, AL Monnier, M Poolman, G Curien, D Petroustos and G Finazzi	20160404
ARTICLES		Towards an understanding of the molecular regulation of carbon allocation in diatoms: the interaction of energy and carbon allocation	
The evolution of diatoms and their biogeochemical functions A-S Benoiston, FM Ibarbalz, L Bittner, L Guidi, O Jahn, S Dutkiewicz and C Bowler	20160397	H Wagner, T Jakob, A Fanesi and C Wilhelm	20160410
The role of intraspecific variation in the ecological and evolutionary success of diatoms in changing environments A Godhe and T Rynearson	20160399	The effects of phosphorus limitation on carbon metabolism in diatoms T Brembu, A Mühroth, L Alipanah and AM Bones	20160406
Inorganic carbon availability in benthic diatom communities: photosynthesis and migration J Marques da Silva, S Cruz and P Cartaxana	20160398	Response of CO ₂ -starved diatom <i>Phaeodactylum tricornutum</i> to light intensity transition P Heydarizadeh, W Boureba, M Zahedi, B Huang, B Moreau, E Lukomska, A Couzinet-Mossion, G Wielgosz-Collin, V Martin-Jézéquel, G Bougaran, J Marchand and B Schoefs	20160396
Acquisition and metabolism of carbon in the Ochrophyta other than diatoms JA Raven and M Giordano	20160400	Genetic and metabolic engineering in diatoms W Huang and F Daboussi	20160411
Mechanisms of carbon dioxide acquisition and CO ₂ sensing in marine diatoms: a gateway to carbon metabolism Y Matsuda, BM Hopkinson, K Nakajima, CL Dupont and Y Tsuji	20160403	3-Hydroxyisobutyryl-CoA hydrolase involved in isoleucine catabolism regulates triacylglycerol accumulation in <i>Phaeodactylum tricornutum</i> Y Pan, J Yang, Y Gong, X Li and H Hu	20160409
Regulation of the Calvin–Benson–Bascham cycle in the enigmatic diatoms: biochemical and evolutionary variations on an original theme E Jensen, R Clément, SC Maberly and B Gontero	20160401	Modulation of lipid biosynthesis by stress in diatoms O Sayanova, V Mimouni, L Ulmann, A Morant-Manceau, V Pasquet, B Schoefs and JA Napier	20160407
Intracellular metabolic pathway distribution in diatoms and tools for genome-enabled experimental diatom research A Gruber and PG Kroth	20160402	Structure and properties of oil bodies in diatoms Y Maeda, D Nojima, T Yoshino and T Tanaka	20160408
