## Discussion meeting issue: The Rhynie cherts: our earliest terrestrial ecosystem revisited

	Article ID		Article ID
<b>INTRODUCTION</b>		The evolution of the stomatal apparatus: intercellular spaces and sporophyte water relations in bryophytes—two ignored dimensions	
History and contemporary significance of the Rhynie cherts—our earliest preserved terrestrial ecosystem		JG Duckett and S Pressel	20160498
D Edwards, P Kenrick and L Dolan	20160489		
<b>DEDICATION</b>		Terrestrial invertebrates in the Rhynie chert ecosystem	
Dedication: Nigel Trewin (1944–2017)		JA Dunlop and RJ Garwood	20160493
D Edwards, P Kenrick and L Dolan	20170365		
<b>ARTICLES</b>		Feeding strategies in arthropods from the Rhynie and Windyfield cherts: ecological diversification in an early non-marine biota	
A review of active hot-spring analogues of Rhynie: environments, habitats and ecosystems		C Haug	20160492
A Channing	20160490		
Palaeoecology and palaeophytogeography of the Rhynie chert plants: further evidence from integrated analysis of <i>in situ</i> and dispersed spores		Fungi and fungal interactions in the Rhynie chert: a review of the evidence, with the description of <i>Perexiflasca tayloriana</i> gen. et sp. nov.	
CH Wellman	20160491	M Krings, CJ Harper and EL Taylor	20160500
Organs and tissues of Rhynie chert plants		New insights into the evolutionary history of Fungi from a 407 Ma Blastocladiomycota fossil showing a complex hyphal thallus	
H Kerp	20160495	C Strullu-Derrien, ART Spencer, T Goral, J Dee, R Honegger, P Kenrick, JE Longcore and ML Berbee	20160502
Exploring the geochemical distribution of organic carbon in early land plants: a novel approach		Nutrient acquisition by symbiotic fungi governs Palaeozoic climate transition	
GD Abbott, IW Fletcher, S Tardio and E Hack	20160499	BJW Mills, SA Batterman and KJ Field	20160503
Changing expressions: a hypothesis for the origin of the vascular plant life cycle		Fertile <i>Prototaxites taiti</i> : a basal ascomycete with inoperculate, polysporous asci lacking croziers	
P Kenrick	20170149	R Honegger, D Edwards, L Axe and C Strullu-Derrien	20170146
The origin and early evolution of vascular plant shoots and leaves		<b>CORRECTIONS</b>	
CJ Harrison and JL Morris	20160496	Correction to 'Variation in recombination frequency and distribution across eukaryotes: patterns and processes'	
Antheridial development in the moss <i>Physcomitrella patens</i> : implications for understanding stem cells in mosses		J Stapley, PGD Feulner, SE Johnston, AW Santure and CM Smadja	20170360
R Kofuji, Y Yagita, T Murata and M Hasebe	20160494		
Bilaterally symmetric axes with rhizoids composed the rooting structure of the common ancestor of vascular plants		Correction to 'Acquisition and metabolism of carbon in the Ochrophyta other than diatoms'	
AJ Hetherington and L Dolan	20170042	JA Raven and M Giordano	20170363
Evolution and palaeophysiology of the vascular system and other means of long-distance transport			
JA Raven	20160497
